I/We..... [PLEASE CHOOSE I/we] hereby declare that .....  
.... [PLEASE INSERT full name of the Company/ Candidate] has no conflict of interest with any other commitment or contracts and that no corrupt, fraudulent, abusive or coercive practice is behind its actions and that it shall carry out its duties to the highest professional standards in the best interests of the Investor with no consideration linked to possibilities for future contracts and that it observes the following principles and minimum basic standards throughout its commercial and procurement activities and has procedures in place to ensure that respect for these principles and standards is upheld by its staff, co-contractors and partners:

### LABOR STANDARDS

1. Employment is freely chosen, i.e., there is no forced, bonded or involuntary prison labor, and workers are not required to provide 'deposits' or surrender their identity papers to the employer and are free to leave their employment after providing reasonable notice;
2. Freedom of association and the right to collective bargaining are respected, i.e., workers, have the right to join or form trade unions of their own choosing and to bargain collectively. Where the right to freedom of association and collective bargaining is restricted under law, the employer facilitates and does not hinder the development of parallel means for independent and free association and bargaining;
3. Working conditions are safe and hygienic;
4. Child labor shall not be used. For the purpose of this statement "child labor" is defined as work that deprives children of their childhood, potential and dignity, and that is harmful to their physical and mental development. There should be no recruitment of children, and children under 18 years of age shall not be employed at night or in hazardous conditions, or for any work which is likely to jeopardize their physical, mental or moral health;
5. The wages and benefits paid for a standard working week meet the minimum, national legal standards or industry benchmarks, whichever is higher. The wages paid should always be high enough to meet basic needs and to provide some discretionary income;

6. Working hours are not excessive, i.e., they comply with national laws and benchmark industry standards;
7. Discrimination is not practiced in relation to hiring, compensation, access to training, promotion, termination or retirement based on race, caste, national origin, religion, age, disability, gender, marital status, sexual orientation, union membership or political affiliation;
8. Regular employment is provided, i.e., the work must be performed on the basis of a recognized employment relationship established through national law and practice;
9. No harsh or inhumane treatment is tolerated, i.e., physical abuse/discipline, threat of physical abuse, sexual or other harassment or verbal abuse, or other forms of intimidation are prohibited.

**ENVIRONMENTAL STANDARDS**

Suppliers must comply with all statutory and other legal requirements regarding the environmental impacts of their business and should aim to:

1. Minimize waste and recycle items whenever practicable;
2. Adopt effective controls of waste with respect to ground, air and water pollution;
3. Adopt emergency plans related to the use and handling of hazardous materials;
4. Avoid undue and unnecessary use of materials and use recycled material whenever appropriate;
5. Monitor processes and activities as necessary to ensure the conservation of scarce resources;
6. Maximize efficient energy usage to minimize harmful emissions.

**TRANSPORT AND CARGO STANDARDS**

1. Transport services should be provided by a company which adheres to the highest possible safety and employment standards, does not engage in transporting illicit or illegal goods, ammunition or other conflict-sensitive materials to or from territories subject to a UN or EU embargo, and which respects human rights and observes international humanitarian law. In a situation when the supplier of the goods is the one arranging the transport, the supplier should ensure that the transport services meet these standards.
2. When air transport is required, preference shall be given to providers who are not on the EU Safety Ban List and whose aircraft are registered in countries which meet the International Civil Aviation Organization’s standards.

**CONFIDENTIALITY**

.....[PLEASE insert the company’s name] agrees to hold in trust and confidence any information or documents disclosed to it, discovered by it or prepared by it in

the course of or as a result of its participation in the above mentioned procurement procedure, and agrees that shall only be used for the purposes of this procedure.
