

INTAKE AND RISING MAINS

LORENTZ PS1800-CS-F

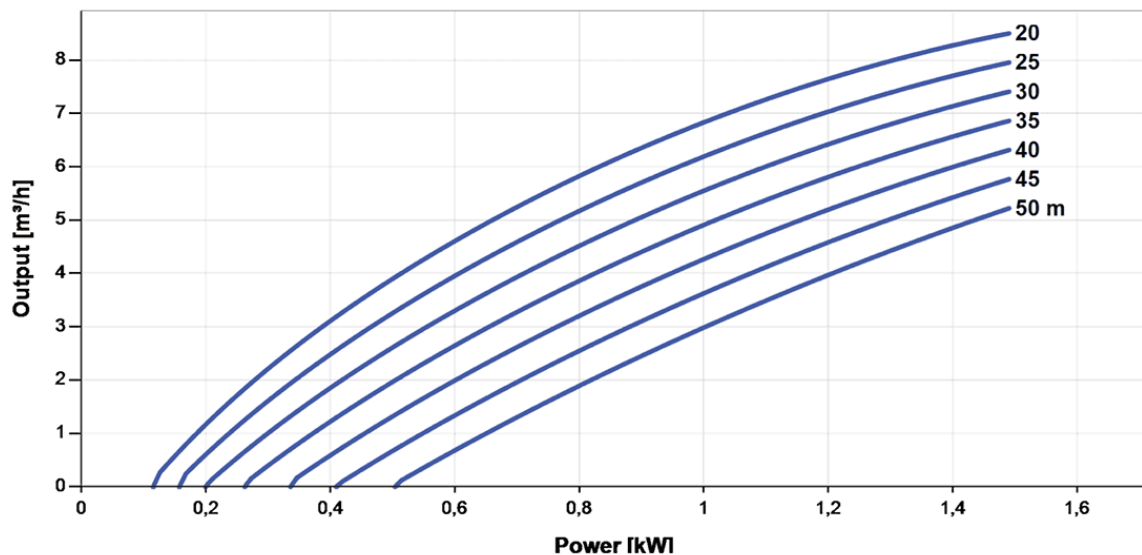

Category: Surface Solar Pumps

The LORENTZ PS range of DC powered surface pumps are connected to a solar generator via a controller. The controller provides inputs for monitoring storage tank levels, controlling the pump speed and uses MPPT technology to optimize the water volume that is pumped.

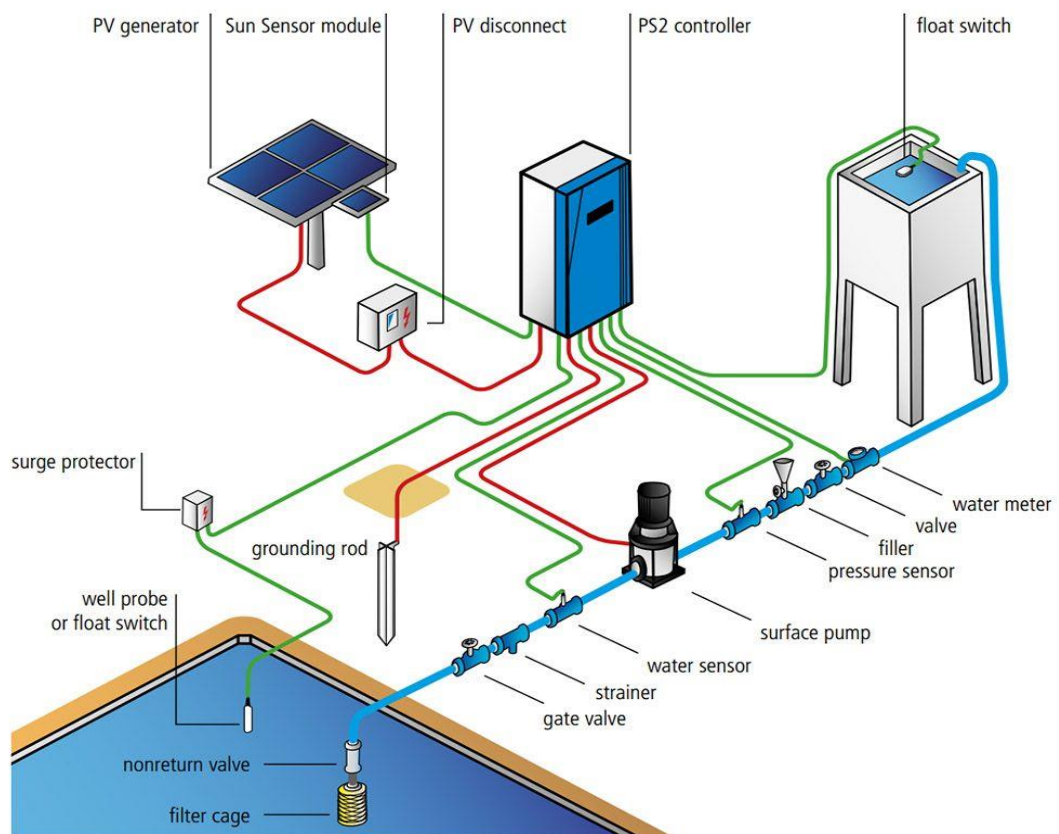

PS1800 CS-F4-6

Max. TDH: 50m

Max. flow rate: 8,5m³/h
